

ULTRALITE™

Carbon Fibre Poles

NEW to the
STREAMLINE® range

ULTRALITE™ Modular Carbon Fibre pole system... Probably the lightest poles ever, with sections weighing as little as 200 grams.

Modular design allows you to add or remove sections to suit the required working height.

The lightness of the pole enables prolonged working time without fatigue, especially when large areas of glass are to be cleaned.

ULTRALITE™

Each pole includes our unique 12" lightweight gooseneck with 12" double trim brush (16" double trim brush available as an option).

This pole is not for the heavy handed, but if you are looking for a lightweight modular pole with exceptional capabilities, look no further. Each section is tapered to allow a push fit assembly for extending. This also allows them to be stored in side each other for protection when not in use.

Cleaning at height... safely from the ground.

STREAMLINE®

The Window Cleaner's First Choice

Each pole includes:

12" lightweight gooseneck and 12" double-trim brush with 2mm pencil jets fitted. Fanjets and other brushes available as options.

Rubber Base Cap and Tuff Ring on each section to protect the pole ends. Plastic storage tube to keep them safe when not in use.

LITE-5® yellow tubing which clips neatly into the base cap of each section allowing the tubing to be kept tidy on the outside of the pole.

Poles are currently available in 10 sizes

Product Code	No. of Sections	Min. Length	Max Length	Achievable Height	Weight (pole only)	LITE-5® Tubing
UL.POLE.01900	1	1700mm	1900mm/6ft	10ft	0.20kg	5mtr
