Flat Surface Cleaners

These allow you to clean large areas in a percentage of the time. The cleaner glides easily, uniformly cleaning surfaces.

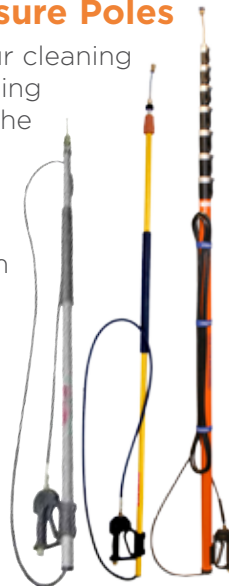

The cover is made with heavy duty ABS material and metal components from anodised aluminium and stainless steel.

High Pressure Poles

Maximise your cleaning with telescoping wands from the HIGHLINE™ range.

Poles are available from 18ft to 40ft reach and in aluminium, glass fibre, carbon fibre or Hybrid material.

Hose Reels

A range of high quality hose reels with direct hand crank rewind, locking mechanism, solid steel construction and full flow brass swivel joint.

Reels can take up to 60-mtr high pressure hose.

...and much more!
