

DENVER™

Tank Systems

NEW TO THE STREAMLINE® RANGE

Denver Tank Systems are well established in the market as quality skid mounted tank systems, designed to make transporting water easier than ever. Fill your bowser at base and take your water supply with you, saving time having to locate a water supply on site.

Applications:

- Window Cleaning
- High Pressure Washing

Available in three popular sizes:

- 450ltr
- 600ltr
- 800ltr

SADDLETANK™

Tank Systems

The 300ltr capacity Saddletank can be mounted on either side or both sides of a van without dominating floor space. Saves you and your work force time, as removes need to locate a water supply out on location - fill your bowser at base and take your water with you.

Lightweight and easy to fit, this safety baffled polyethylene tank is essential kit for on-site water uses.

Saddletank Features

- Tank with baffle, 2x 4" vented caps, mounted on galvanised frame for water transportation in vans.
- Heavy duty galvanised fixing frame kit for maximum protection against corrosion.
- Fits over wheel arches for maximum load space.
- Anti surge moulded baffle for safe transportation of water.
- Separate chemical storage area.

Maximise your space and enhance your image with **SADDLETANK™**
